Feed Size Chart for Trout: Use the chart below to determine the correct feed pellet size for the size of fish being fed. Feed pellet size is listed on the left, with fish size as the number of fish per pound, or as the total length in inches, listed in the columns on the right.

Example 1: Fish sampled at 80 fish/pound should be fed a #4 Crumble feed.
Example 2: 7" fish should be fed a 5/32 pellet.
