Come join us for an informative workshop to learn proven wine grape growing techniques, acquire basic tools to successfully manage a vineyard, and come away with a better understanding of how to get started in the wine business. Experts from The Ohio State University South Centers and Department of Horticulture Crop Science will be on hand for presentations and to answer your questions.

Learn the basics on these topics:

• 2018 Vintage Overview
• Assessing Vine Balance
• Sulfur Dioxide Management in the Cellar
• New and Existing Varieties for Quality Wine Production
• Essential Issues in Fermentation Management
• Vineyard Soil and Tissue Analysis
• And More
