Grants for Small Business

“Where can I find a grant to start/expand my business?”

The answer is, you usually can't find a grant to start or expand your business. However the following slides will provide you with general information about a few grants that may be available, and tips on how to decipher between a credible program and a potential scam.

Grant Myths & Facts

- ❑ **Myth** - You may have heard advertisements that suggest the government will "give" you money to start or expand your business.
- ❑ **Fact** - No government agency is handing out free money to start a business, regardless of your gender, ethnicity or economic status.
 - Some government grants are available, however they are designed for very specific programs such as:
 - Highly technical areas of industry
 - Schools and training programs
 - Other state and local government programs

Grant Myths & Facts continued...

- ❑ **Myth** – The U.S. Small Business Administration (SBA) has grants available for small business owners.
- ❑ **Fact** – The (SBA) does NOT provide grants for starting or expanding a business, though it does offer a wide variety of loan guarantee programs which must be applied for by an approved SBA lending institution. Visit www.sba.gov for more information.

Grants for Small Business

- Government grants are funded by tax dollars and require very stringent compliance and reporting measures.
- 100% financing is a thing of the past and just isn't available.
- The harsh reality is that 95% of small businesses are started with a combination of personal savings, loans from friends or relatives, commercial lenders and economic development offices.
