Mobile Media Marketing

Emerging trends in social, mobile and location-based marketing present unique opportunities and risks for farmers and other food businesses.

The Maps & Apps program guides entrepreneurs by helping them see how consumers:

- find their business online.
- view their business on mobile devices.
- use social media to access their content and special offers, as well as to post comments, photos, videos, reviews, and location-based check-ins.
- utilize apps and GPS devices to find and navigate to their business.
- access the latest apps and gadgets.
Maps & Apps

Education
- 9 conference presentations for 410 producers
- 2 webinars for 100 participants
- 1 hands-on workshop for 22 producers
- 400+ visitors to online multimedia resources

Impacts
- Conference participants rated the session 6.25 on a scale of 1-7.
- 96% of workshop participants reported a very high (55%) or high (41%) increase in ability to improve their online presence for customers.

Additional Developments
- More than $50,000 was generated in grants and program income.
- Research included targeted interviews, a review of literature on interactive marketing, relationship marketing, adult learning, and technology.

Acknowledgements
- Funding for this project was provided by the North Central Risk Management Education Center, the USDA National Institute of Food and Agriculture. This material is based upon work supported by USDA-NIFA under Award Number 2010-49200-06200.
