

Introduction to Aquaculture and Aquaponics

Saturday, October 29, 2016, 8 am—4 pm
OSU South Centers, 1864 Shyville Rd., Piketon, OH

Learn about aquaculture and aquaponic farming at this introductory-level workshop. Attendees will tour the OSU South Centers facilities that include several outdoor ponds, a large indoor recirculating system, an aquaponics operation and more. Light breakfast, materials and lunch included.

\$45/person or \$75 for two from same family/farm

Classroom topics to be covered include:

- Aquaponics basics
- Fish and plant selection for aquaponics
- Introduction to pond & recirculating aquaculture systems (RAS)
- Business planning for your new venture
- Marketing considerations
- Water quality management

Register by October 22
